

Web Developer Job Description

Job Title: Web Developer

Location: [Chennai / Remote]

Job Type: Full-Time / Contract

About Us:

Hirely is a leading technology-driven organization focused on building scalable and high-performance web applications. We are looking for a skilled **Web Developer** with expertise in **front-end and back-end development** to join our dynamic team.

Job Summary:

As a **Web Developer**, you will be responsible for designing, developing, and optimizing web applications using modern frameworks and technologies. You will work closely with cross-functional teams to create efficient, user-friendly, and secure applications that meet business and customer requirements.

Key Responsibilities:

- Develop, test, and maintain responsive web applications using **HTML, CSS, JavaScript, and frameworks like React.js & Angular.js**.
 - Integrate real-time databases such as **Firestore and MySQL** to ensure seamless data storage and retrieval.
 - Implement **secure authentication systems** using Firebase Authentication.
 - Optimize web performance and load times by improving **DOM manipulation and API handling**.
 - Work with RESTful APIs to integrate third-party services and payment gateways in web applications.
 - Build and maintain cloud-based applications, leveraging **AWS services like S3** for scalable solutions.
 - Develop interactive dashboards with **Power BI** for data visualization and analysis.
 - Use **Git and GitHub** for version control and collaborative development.
 - Follow industry best practices for **coding standards, debugging, and security measures**.
-

Preferred Qualifications:

- **Bachelor's degree in Computer Science, Engineering, or a related field.**
- **1+ years** of experience in full-stack or front-end web development.
- Proficiency in **Python, JavaScript (Basics), C, and SQL**.
- Hands-on experience with **React.js, Angular.js, and Firebase**.

- Strong problem-solving and debugging skills.
 - Knowledge of **Cloud Computing (AWS Cloud Foundations certified is a plus)**.
 - Experience in building and optimizing **eCommerce or task management applications**.
 - Understanding of **UI/UX design principles** using Figma.
-

Nice to Have:

- Experience with **AI-powered applications using OpenAI APIs**.
 - Familiarity with **machine learning concepts and automation**.
 - Exposure to **data analytics tools and techniques**.
-

Benefits:

- Competitive salary and performance-based bonuses.
- Flexible work schedule with remote opportunities.
- Opportunities for professional development and certifications.
- Collaborative and innovative work environment.
- Access to cutting-edge technologies and mentorship programs.

Join us in building innovative web applications that drive success!
