

Junior Data Scientist (1-3 Years Experience)

Job Overview

We are looking for a Fresher Data Scientist with a strong foundation in statistics, machine learning, and Python/R. You will work closely with senior data scientists to develop models and analyze large datasets.

Responsibilities

- Assist in data collection, cleaning, and preprocessing.
- Apply basic statistical techniques to analyze datasets.
- Support senior team members in machine learning model development.
- Visualize data using Matplotlib, Seaborn, or Tableau.
- Collaborate with cross-functional teams for data-driven insights.

Required Skills

- Strong foundation in Python or R, NumPy, Pandas, and SQL.
- Basic understanding of machine learning algorithms.
- Knowledge of data visualization tools (Tableau, Power BI, or Matplotlib).
- Good problem-solving and analytical skills.
- Willingness to learn Big Data and cloud computing.

Preferred Skills

- Internship or project experience in data science or analytics.
- Exposure to Google Cloud, AWS, or Azure.
